

Be an H2O Hero in Your Neighborhood!

There are many fun and easy hands-on volunteer and service learning opportunities for students, scouts, neighborhood groups, and families.

Call 585-753-5472 for assistance or visit H2OHero.org and our facebook page.

Storm Drain Marking -

Illegal dumping is a significant source of pollution. Help educate the community by marking storm drains with the message "Drains to Lake." All the necessary supplies are available for FREE.

Watershed Litter Clean Ups -

Litter is often transported to our local waterways by the storm sewer. There are many clean ups scheduled throughout the year.

Planting Trees and Shrubs -

The native plants that grow on the stream bank minimize erosion, protect water quality, and provide habitat for wildlife. Contact us for information about ongoing restoration projects in need of volunteers.
