The meeting was adjourned at 9:00 p.m., and the spirit of co-operation was apparent throughout the evening.

First, I believe that the Negro people should continue to thank God. Almighty every day for their white friends who have sincerely proved to him, that they are endeavoring to be a good Neighbor. The slogan now being used by our local Community Chest is indeed appropriate and timely and the movement deserves the support of every citizen in this vicinity, regardless of race, creed or color.

This same slogan we believe should be kept before the eyes of our white business men and women, because being a good neighbor to all races of mankind, particularly the Afro-American, is of vital importance.

CHICAGO AVIATOR WINS TRANSPORT PILOT'S LICENSE

Chicago, Ill., May 22 (ANP)—Dr. Earl W. Renfroe, prominent dentist and well known aviation enthusiast, received word this week from the aeronautical States Department of Commerce that he had successfully passed his strenuous physical, mental and flying tests and been granted a transport pilot's license. This is the highest license obtainable in aviation, and according to government records, Dr. Renfroe is the third Negro in America to hold this coveted honor, the other two being C. Alfred Anderson of Pennsylvania and John W. Greens, Jr., of Boston, Mass.

Interviewed, the flying dentist revealed he has two more ambitions—to establish an aviation school for Negroes and to form a squadron of Negro flyers who will measure up to the requirements of the U. S. Air Corps. Dr. Renfroe is also prominent in local professional circles and for five years has been instructor in Oral Diagnosis at the University of Illinois College of Dentistry. Mrs. Renfroe, the doctor's attractive wife, has also won recognition as a skilled student flyer and has many hours of solo flying to her credit. The couple own their own plane and in their flights across the country, take their turn at flying.

Borah cries "Deceit" as he loses Negro vote

Washington, D. C., May 22 (C)—Senator Borah noted that Negroes defeated him in the Ohio primary last week by giving out a statement in which he charged the Republican candidates with a "plot to win the Negro vote" by promising to "kill" a Lynching Bill. Mr. Borah has been notified in his opposition to anti-lynching legislation. When the Negro vote in Ohio swung behind Robert A. Taft and defeated Borah, he declared himself as a staunch supporter of the anti-lynching legislation.

WHITE HEIRS GET COLORED WIFE'S FORTUNE

Chicago, Ill., May 22 (C)—White Virginians have been awarded the $79,000 fortune of Mrs. Maria Turner, widow of State Senator Sheardick B. Turner, who died in 1927. The award was on the order of the Appellee Court.

Evidence in the case showed the whites, six in number, were descendents of Lucian Fletcher, white, who was Mrs. Turner's father by a marriage to Mary Elizabeth Woodard, a slave. Fletcher later married a white woman and it is the descendants of his white wife who claim the fortune.

Mrs. T. V. Hutchinson of Looport, N. Y., visited her daughter, Mrs. M. McIntyre of Frost avenue, on Mothers' Day and attended services at the A. M. E. Zion Church.

Odd Mishaps Disclosed in Pennsylvania Report

Harriason, Pa.—A cross section of Pennsylvania's industrial accident reports of recent months discloses some unusual mishaps.

To emphasize the importance of employee and employer exercising "care at all times and in all circumstances," Raymond W. Foster, head of the State Department of Labor, cited a few "unusual accidents," as follows:

A West Homestead employee, who had a warm spot for cats, suffered a badly lacerated hand while removing his pet kitten's head from a salmon can in which it came to rest. A Philadelphia fireman who tripped over a cat and fell from the first floor to the basement, suffering cerebral concussion and conclusions.

A Philadelphia restaurant worker who was badly snapped by a turtle before he started making soup.

A Dauphin county worker who was bitten by a snake when he fired a gun.

Another unusual mishap was a Scranton window cleaner who was badly cut when a window knocked his arm against his pocket in which he carried several razor blades. The razor blades were part of his equipment, used for scraping stickers and posters from windows.

In Philadelphia, a dentist suffered a badly blackened eye when a tooth he extracted slipped from the forceps and struck him in the eye.

National Bar Association Wants "Negro Plank" in Platform of Both Major Parties

Lawyers of Nation Send Pointed Resolutions to Democratic and Republican Party Leaders, Demanding Anti-Lynching Law

Toledo, O., May 22 (ANP)—An effort to nail a "Negro Plank" in the platforms of both the Republican and the Democratic parties and to safeguard and promote the general welfare of Negroes throughout the country through specific guarantees of their rights and privileges as American citizens, was made public this week, when these considerations were embodied in a set of resolutions and adopted by the Negro National Bar Association.

Identical copies were sent to the resolutions' committees of both major parties, to be included in the party platforms for the forthcoming national conventions. The attorneys, many of them nationally known, condemned mob violence and in their language demanded enactment of a federal anti-lynching bill.

It has been the aim of Negro political leaders, economists and sociologists for the past 50 years to have both major parties in national convention assembled, take some definite stand on the question of Negro rights and equality before the law as American citizens.

Text of Resolutions

The Negro lawyers of the country have for the past 50 years insisted that as a unit they have declared that the civil rights of this country's 15,000,000 Negroes must not be abrogated and that they are an integral part of the body politic of the nation. Attorney Jesse H. Heulp, chairman of the committee on Resolutions of the National Bar Association, in a telegrahm to the Associated Press, said: "We desire to submit some objectives and spirit of the dominant race to- wards the recognition of his rights as an American citizen. Herefore both of the major political parties have issued general pronouncements calculated to appease the yearnings of the Negro for full citizenship rights. However, such pronouncements have been accomplished by such vague and general promises.

We are making, therefore, that the following definite objectives be set up as a part of the Platform of the Republic- Nacional Committee:

1. Inasmuch as the right of the Negro is the mainspring of democratic government, that right should not be secured. In a government, "of the people, by the people and for the people," so fundamental is this right, that property and educational qualifications should be abolished. There should be universal suffrage in the primaries as well as in general elections, in both our state and national governments.

2. It is demanded that laws be taken to alter the federal rights of the Negro in every state of the Union, and if necessary they should be cried into another and separate national constitution.

3. The judiciary is one of the most important branches of our form of government. Negroes should have representation on the Supreme Court and also in the various state judicial bodies.

4. Such representation should be accorded the Negro in every other branch of the government, on all administrative boards and commissions, and in the Civil Service. Particularly of this we charge that appeals in our civil serv- ice be known and selected by finger prints instead of photographs, so as to prevent discrimination.

5. Inasmuch as the crime of lynching is a national evil and disgrace in that it challenges respect for law and order and renders life and property of American citizens insecure, there should be enacted at once a federal law against lynching.

We deem these matters so vitally important to the Negro and to the nation that we are requesting our state and national governments to be enacted at once a federal law against lynching.
