Cleveland's Negroes Are Kept Out of Defense Jobs

In spite of the adverse conditions which are to be found in any large cities, Negro workers in Cleveland are fighting and working for their share. The Future Outlook League has done a great job and are credited with putting Negro clerks, men and women in factories and shops, especially in Negro areas. Now Uncle Sam has arrived there with his demands. The Judge should mete out light prison sentences to this type of offenders. The Judge should mete out light prison sentences to this type of offenders. The Judge should mete out light prison sentences to this type of offenders.

The following editorial written by Mr. Forte, of the Cleveland Herald, is typical of the way in which the Negro newspaper is pushing the Negro worker—into the front—eventually the vanguard:

"There's a lot of pride in the Negro's mind when he says: 'Yes, I was born and raised a Jew.'

"The Negro has grown with America. Like other Americans he has been called on to perform his part in the country's development, and no Negro who will ever go down to history in the Southland will ever be known as, 'Uncle Tom.'

"No trial has ever called the glorious record of his loyalty and patriotism—he has given his blood to save his country from the War of the Revolution down to date.

"American in the Negro's home. It is his duty, then, to be certain that every home is clean and neat, from the living room to the cellar.

"Here the Negro in Cleveland is seriously concerned about the fact that no Negroes are being allowed to enter the industries in this great city to help prepare its armed forces. He cannot escape the fact that they are losing occupations, and the Negro has a right to such opportunities as the American Negro is allotted in all things that mean the bettering of his race.

"It appears that the Negroes are being held out because of their color. The negroes are being held out of the industries and the unions, and the Negro newspapers of Cleveland are urging the Negro to fight for his rights, to know what he is thinking!

"Our enemies do not yet see all that is possible for the Negro, but the Negroes and Negro newspapers of Cleveland are determined to see that the Negroes will be known as the vanguard of the growing generation, a generation that will demand equal rights and equal opportunities for all races.

"Yes, the Negro has grown with America. He has been called on to perform his part in the country's development, and no Negro who will ever go down to history in the Southland will ever be known as, 'Uncle Tom.'

"There is a lot of pride in the Negro's mind when he says: 'Yes, I was born and raised a Jew.'
