On Friday, May 5, the following article appeared in the final edition of the Times-Union:

"Woman 'Rescues' Slapped Child"

A five-year-old girl, kindergarten pupil at School 19, was led several blocks from the school by a Negro and then apparently was rescued by a white woman, according to the police of the Sixth Precinct.

They said the little girl told her parents that the Negro slapped her after emanating her in conversation in Magnolia Street as she started for her home in Columbia Avenue this noon. She said she became frightened and went with him as he took her by the hand and walked down toward School Street in Charles Street. They were followed by a schoolmate of the little girl. A woman, apparently of the same color and girl together; then 'took her away from him' and accompanied her most of the way home. The girl was unhurt.

After reading the above article, Etta Moten was contacted and expressed that the story was false and asked for her cooperation in the matter and appeared in the final edition of the Times-Union.

Just ask Etta! A bottle of Royal Crown Cola is the way she chose to chase those blues. One lucky day she took the famous cola taste test. She tried leading cola in paper cups and none of it could beat the Royal Crown Cola in her test. Etta says: "It’s my favorite ‘quick-up’ any season!"

NEGO PRESS CREED

The Negro Press believes that America can last the world away from racial and national antagonisms when it accords to every man, regardless of race, color or creed, his human and legal rights. Hating no man, fearing no man, the Negro Press strives to help every man in the dark belief that all are hurt so long as anyone is held back.

Statement before the City Council on April 25, Howard W. Cole, editor of the VOICE Newspaper, said:

Mr. D’Aloisio, Chairman of the Council:

I wish to take this opportunity to commend this honorable lady for her efforts to create a Civilian Planning Commission to set in an advisory capacity to the already established City Planning Board.

Speaking as a representative of the local Negro press and the Rochester Negro Citizen’s Planning Council, there are three points that I wish particularly to emphasize. In 1929, the Negro citizens of this area tried to purchase property valued at $311,946.00. This may be to refrain to a period of depression. In 1934 to 1935, they had purchased property to the amount of $311,046.00, representative of private homes with a reappraisal of commercial property here and there.

It would be like this to avoid the “attention” of this Council to the Negro in the particular sections of the city in which I was mentioned, which I am sure that you have noticed.

The Negro is not to be considered part of the Negro but the Negro is an important Negro.

One of the reasons why it is so important that there be a representative from the group.

REAL ESTATE

PURCHASERS

The bundle of property ac-

has brought on a wave of prop-

"Intolerance vs. Intelligence" 

By JOSEPH P. MASSEY

has reached the conclu-

sion that intolerance is a little

devil in our community because it arre-

s to itself a pernicious influence.

Who owns the power and the right to de-

termine whether or not we feel the

dictates of conscience? That is the

question. And I have found that

one's consciousness of the

other fellow following a particu-

lar line of conduct in the mat-

ter of religion is so often based

upon ignorance and misinfor-

mation that these houses are

happens to be the one

which we ourselves believe.

It seems to me to

pills with equal force to racial

and national intolerance.

After all, the Creator is responsible

for the followings of a great

people, hence, racial prejudice is

in the very nature of the Creator

which again is doing violence to

sacred principles. My

objection to all intoleration

prejudice, bigotry, greed and lust for

power and all lower forms of

humanity. Obviously, prejudice

is partly a matter of ignorance

or prejudice, a fact.

But it suggests that we should

make common cause in

intolerance because which

this occurs, the persecutors will

be more cautious and leniently
