Jesse Owens and Detroit Cubs Will Attract Thousands to Stadium July 23

The Detroit nine represents the C. I. O. in the Motor City

The Detroit Cubs, with the addition of Jesse Owens to their ranks, will add sparkle to the 1944 baseball scene in the Rochester area. Owens, the world's Olympic Champion, will meet the Detroit Cubs, who are seeking to fill a slot left by the Rochester Mandells, who closed up shop at the end of the 1943 season.

Owens, who was victorious in all three of his Olympic events (100, 200, and Broad Jump), will repeat his feat in Rochester in a contest with the Detroit Cubs on July 23.

The game will be held at the Red Wing Stadium, and will be sponsored by the Laemmle Post, American Legion and the Rochester Public Library.

The Grand Marshall will be Reverend A. Clayton Powell, Jr., of the Negro Freedom Rally, 126th St. and Lenox Avenue.

Rally, 126th St. and Lenox Avenue.

The Committee is holding a March for Victory on Negro Freedom Sunday, June 16th, 1944 which will end at Commercial Street, Utica Brookes Square, 137th St. and St. Nicholas Avenue. The parade will be led by various patriotic organizations and trade unions in its ranks, with Reverend A. Clayton Powell, Jr., as the head of the parade.

The Committee also expresses pride in the statement that the Negro soldier of our country has a share in this great crusade, for they have brought glory to our county in each of its victorious wars. We wish only that the full weight of their fighting power was demonstrated at this moment able by each with the words: "May God give you, your Commanders, and your men the wisdom, courage and strength to keep the world free, and to make it, as we are confident it will be the beginning of a new world, without tyranny and in which freedom and human rights are universal, unclouded by segregation and discrimination in the enjoyment of any rights of our fellow men with any part of the world."

In Rochester, Owens will run the hundred against all comers, the low hurdles, circle the lines in an attempt at the world's record, put on a deadly stride, show his famous broad jumping ability, and interview over the loudspeaker.

The Rochester Branch of the National Association for the Advancement of Colored People has been making frantic efforts in the direction of a comeback. It is characteristic of colored people to rise to any challenge that is put to them in the right and openly obvious course (filing suit against those taking it in favor of more shabby and second-rate causes). At the annual meeting on Friday afternoon, the First Baptist Church, in Monticello Hall there were less than 50 persons in attendance, predominantly whites who had been invited by John Henry Arthur Hatfield who has just returned from Washington where he was in the State of the suit, and by Lyman Johnson, president of the Negro Chamber of Commerce.

Mr. Johnson, by his own admission was not asked to join the NAACP but it is becoming quite obvious that the officers of that body, though they did not extend an invitation to him, are losing no time in capitalizing on his affiliation. This is the second occasion in less than two months at which he was one of the speakers.

It is Mr. Johnson's idea that his affiliation with the aroused purposes of the NAACP should carry him into the fold of Rochester's colored people. He has a membership of at least 900 and it is hoped that they will have and the NAACP's are to refer to as a "handful." Last year, he revealed that we agree whole-heartedly with Mr. Johnson. But it is also recorded that there is no more certain way of losing friends and followers than to be unappreciative.

The Rochester NAACP during the past two years had a membership of more than 460 persons and a president, who for devotion to the organization had been offered a membership of at least 1,500. Instead of accepting it they asked and the NAACP has to refer to as a "handful.

The NAACP's have been told that we agree whole-heartedly with Mr. Johnson. But it is also recorded that there is no more certain way of losing friends and followers than to be unappreciative.

**Conference With Officials**

I soon found that Mr. Huxley was a person of the most amiable character. Mr. Teeter was quite cooperative and told me that he had come to the camp to visit his sister, who was employed there. He mentioned that he had heard of the situation and he was there to try to find out what was going on.

I expressed my concern about the presence of the police and Mr. Teeter assured me that they were there to maintain order and protect the workers. He said that it was important to maintain a peaceful environment for the workers to work in.

I also asked him about the wages. He told me that the wages were not very high, but they were fair and were paid regularly. He said that the workers were content with the wages and that they were able to make a living with them.

I then asked him about the working conditions. He said that the conditions were not ideal, but they were not as bad as they could be. He mentioned that the workers had a lot of breaks and that they were able to spend time with their families.

I thanked him for his time and asked him to keep me informed of any developments. He promised to do so and we parted ways.

**Workers Assaulted**

The next day, I went to see the workers myself. I was surprised to see the amount of damage that had been done. The camp was a mess, with broken windows and damaged furniture.

I talked to some of the workers and they told me that the assault had been carried out by a group of men who had been hired by the company. They said that the company had been trying to disrupt the strike and that they had been acting in an illegal manner.

I reported my findings to the authorities and they launched an investigation. The company was later fined for their illegal actions.

**Minister Conducts Services**

I also attended a service that was conducted by Mr. Caldwell of the Church of God in the camp. He delivered a powerful message on the importance of peace and harmony. He impressed upon the congregation the need to work together for the betterment of all.

I was impressed by the dedication of the workers and their commitment to their families. They were a strong and united group, and I was confident that they would be able to overcome the challenges that they faced.

I continued to visit the camp and to monitor the situation closely. I was determined to see that justice was served and that the rights of the workers were respected.

---

**NEGURO COUNCIL VOICES PROTEST**

I was pleased to see that the Negro Council of the Village of Ontario had taken up the cause of the workers. They were holding a protest rally to demand their rights and demand better working conditions.

I supported their cause and attended the rally. The crowd was large and passionate, and I was impressed by their determination.

I spoke at the rally and assured the workers that I would continue to monitor the situation and that I would do everything in my power to help them.

I was confident that justice would prevail and that the workers would be heard.

---

**The End**

The situation continued to unfold, and I remained involved until the workers had achieved their goals. I was pleased to see that they had managed to improve their working conditions and that they were now able to work in a more dignified manner.

I continued to monitor the situation and to offer my support. I was confident that the workers would continue to fight for their rights and that they would be successful in their endeavors.
JESUS CHRIST, THE SHIP'S DOCTOR

Headquarters, Hospital Corps, Headquarters, and a Hospital Corps Officer in a hospital could see the advantage of a uniform. The advantage is that it establishes a bond between the patient and the hospital staff.

But the ship's doctor, an Irishman, told me that he had been busy. He had been busy because he had seen a patient with an accidental ulcers because of the noise and the danger. He had also been busy because he had seen a patient with an accidental ulcer because of the noise and the danger.

This was the setting when the ship's doctor, an Irishman, told me that he had been busy. He had been busy because he had seen a patient with an accidental ulcer because of the noise and the danger. He had also been busy because he had seen a patient with an accidental ulcer because of the noise and the danger.
