The Voice asked for Negro Police in 1936

(Continued from Page 1)

At that time, crime among the Negroes in this city was very much on the increase with two or three numbers in one year. As a result of this concern a meeting was held in the various sections of the city where the Negroes lived and all Negro leaders and concerned persons were present doing a lot of research into the matter. This interest was followed up by creation of an original petition with the names of many Negro leaders. The following signatures were secured on this original petition by Negro leaders: May, our society is how a member of the armed forces of the United States.

The petition was, as follows:

The petition was then forwarded, as mentioned above, to the Executive Committee of Rochester and Western New York and to the Governor of New Jersey and the Governor of California urging the appointment of at least two of our Emergency police and officers in the future.

American Legion asks for Negro policemen

(Appeared from page 1 and in advance for the welfare of our war veterans who gave their lives in the combat of the country,

"I feel sure," he said, "that it would be a mistake now. Our war veterans have shown us how much we should be thankful for the things we have now."

"I promise before God, as a Commanding Officer, that I will fight with the fury of a foe to see that those who were committed to this cause for the freedom of our people receive all the benefits they have earned and that those things they have sacrificed shall be preserved for them to have.

The Voice asked for Negro Police here.

Our former paper which originally brought to mind the question of the appointment of at least two Negroes as special policemen in the city where the Negroes lived and in this community was formed and the following signatures were secured on this original petition by Negro leaders: May, our society is how a member of the armed forces of the United States.

The petition was then forwarded, as mentioned above, to the Executive Committee of Rochester and Western New York and to the Governor of New Jersey and the Governor of California urging the appointment of at least two of our Emergency police and officers in the future.

ASSOCIATION POLITICS BACKFIRE

By GEORGE W. HARRIS

Manager of Business Operations of the National Association for the Advancement of Colored People, New York City, New York, and former New York City Councilman.

NEW YORK—Devaluations of the color line that have gone on all along, the new NAACP Secretary of the NAACP, has announced not only against his own line of action, but against his own policy.

The proposed political disturbance has been brought about by a group of Negroes who have joined the NAACP, which is a federation of Negroes.

All through the country there have been debates over the National Association for the Advancement of Colored People, which has been working for the advancement of Negroes.

The new NAACP is a federation of Negroes, and it has been working for the advancement of Negroes. The new NAACP is a federation of Negroes, and it has been working for the advancement of Negroes.

This seems like gagging on a gnat while swallowing a camel. The NAACP is a federation of Negroes, and it has been working for the advancement of Negroes.

Camp Ontario, Part 3

In the two previous articles, the publisher of this paper related how he and officials of the State Health Department visited the camp of migratory workers in Ontario, N. Y.; the lack of ordinary sanitary conditions there and the efforts he and his colleagues are making to have these faults corrected. In this third article, he compares the conditions existing in a nearby camp at Williamson, N. Y., to those of the camp at Ontario.

At this point our party composed its visit to the Williamson camp and I accepted an invitation from Dr. Lembke and Mr. Moore to accompany them to the Williamson camp. A short way from the village is Williamson, N. Y. A large number of Bahamians had just arrived there by way of the village of Williamson, N. Y. to livesmaller and the nearest end of the hill and turned into the driveway that led into the camp. After looking over this interesting camp I could well understand why he felt proud of the particular selection; for it was a beautiful site. No one of little buildings was upon this high plateau. To our left was a pasture with a depth of at least 500 feet and in a distance of at least 300 feet which lent itself readily as a dispose-all for the waste waters of the camp as well as making provisions for the disposal of the waste,

Jimmie picks a winner on his lucky day

"This is my lucky day!" said Jimmie Lunceford when he took the first cola taste-test. His tried leading cola in paper cup and asked the men how they liked it. Yes, it was Royal Crown Cola! He had asked Royal Crown Cola whenever he had time to re- lax. For him it is sure way to chase the blues, too! Try it yourself.

ROYAL CROWN COLA
BEST BY TASTE-TEST

IN THE BIG RED AND YELLOW BOTTLE
