Leaders Confirm WP Chairman on Vote Strategy

BROWNELL APPROVES NO JIM CROW POLICY

Herbert Brownell, Jr., National Republican chairman, who met with Democrats and a delegation of Negro leaders from this eastern seaboard area today, reports to him "feelings of speed" for the Dewey-Jackson ticket.

He is reported to have told Bishop David B. Sims of Philadelphia, chairman of the Eastern Division Negro Republican Council, that he met "feelings of speed" for the Dewey-Jackson ticket.

LETTER TO EDITOR

TUBERCULOSIS AND HEALTH ASSOCIATION OF ROCHESTER, INC.
September 15, 1944

Mrs. Howard Cole
425 East Avenue
Rochester 8, New York

An important meeting on neighbor- ing tuberculosis and health problems will be held on Tuesday, September 19, 1944, at 8:00 p.m. in the Auditorium of the National Baptist Church, 426 East Avenue. The purpose of the meeting is to bring together interested citizens of our community to discuss problems of health and hygiene.

We have invited experts in the field of health and hygiene to address the meeting. They will discuss topics such as tuberculosis, diabetes, and heart disease. The meeting will also provide an opportunity for questions and answers. Light refreshments will be served.

All are welcome to attend. Please spread the word among your friends and neighbors.

Sincerely,

Rochester Negro and Employment

A tour of the Rochester industrial area in company with Mrs. Howard Cole, editor of the Rochester Negro Voice News, questioning employers and being interviewed. As the tour went on, we found that our Negro boys and girls are doing very well in our industries. Under the guidance of the Negro Association, our Negroes are taking courses at our public schools and NYA, and receiving training in making a contribution to the War effort. When we visited employers and asked them about their Negro employees, they were very pleased to talk about their work and the progress they were making.

We have found that Negroes are able to do almost any kind of work if they are given a chance to learn and develop. They are willing to work hard and do a good job. We believe that the Negroes are an asset to our community and should be given every opportunity to develop their full potential.

Sincerely yours,

are to reduce the incidence of phosphoryasis in the lowest possible minimum; to improve the general health of Negroes among individuals, families and the community; to stimulate the residents of the area in developing neighborhood health groups. From an administrative point of view, to utilize known leaders and uncover latent leadership for constructive purposes related to health and welfare and to guide the residents of the community in recognizing and solving their own health problems. The chairman was elected because of the quality of his judgment, the influence he could wield and other factors which tend to increase the effectiveness of the council.

The council appointed to control the project includes Miss Horace, chairman; Miss Anna Coyne, Mrs. Clinton Fox, Dr. Louis Tomaselli, Dr. Charles Boddie, Mrs. Ruby Hendricks and Miss Dorothy Greer, executive secretary are member ex-officio of the commission.

We hope that the residents of the third ward will give their whole-hearted support to this effort.

NEW YORK—An analysis of the voting trends shows that since 1932, on a side of the party in power in the national government, the Republicans stand on excellent chances of winning the election next November.

At the present time, 26 states with a total of 126 electoral votes are under the Republican administration. That is the greatest number of governors the Republican party has in any campaign against the Democrats.

When Roosevelt ran against President Hoover in 1928, there were 13 Republican governors in the country. In that election President Hoover polled 15,243,465 popular votes, Roosevelt 12,801,755. Democrat Roosevelt received 449 electoral votes, Republican Hoover 196. The difference was in 1932 the trend was back to Democratic, with Wendell Willkie as his opponent.

Electoral votes: Landon 28, Roosevelt 472; Hoover 59. President Hoover in 1932, there was away from the Republicans: 1940 than in 1936. Landon 'poll 16,679,583 popular votes: Roosevelt 19,758,901 popular votes. Roosevelt ever received.

WRITER LISTS 4 WAYS TO BEAT BIGOTRY

CHICAGO—Building bigotry that begins in the cradle will end only in the grave. Declaring that millions of American children are being taught to hate, Howard Fast, author of "Freedom Road," writing in the September issue of "HORIZON DIXIE," published here, says: 1. Your point program to beat bigotry. The noted writer of some of America's most outstanding theoretical novels states that if it get into action, the following points can change the nature of household for the better.

1. Never use derogatory racial terms; never think of them; if you must, never permit them to be used in your home.

2. Don't discriminate in your personal conversation. If you speak of a Negro to a third person, refer to him by name, not as "that Negro, Jones."

3. Don't interpret religious or race differences to your children.

4. Don't feed the mid-west story in sensational stories, tall up heathen and blackguardsly and it means losing a friend—and not too worthwhile one. It also means teaching your children children another better human material.
