CITIZENS ARE URGED TO VOTE EARLY AND INTELLIGENT

No matter what you have to do, nothing is more important than voting on Tuesday, November 5.

Let nothing stop you. Don't get too busy. Get out and vote. Don't put it off until evening. Vote before you go to work. You can't afford to miss this chance.

Don't think that if you don't vote it won't make any difference. Each individually voiced vote counts in the city hall. The man who can for office and hold office, check the voting returns disappointing. They know where their voters and supporters are. That's where their consideration goes. You can't get consideration if you don't produce votes.

Many politicians have little regard for people who don't vote. You can't make yourself heard if you don't vote. IF YOU don't vote, you are a stumbling block toward progress.

Too many of us are wont to think that politics is not OUR job, but our parent wants for himself and his children good education, good jobs and security and these can only be attained if you vote for the man you think is best fitted for the job.

Polls are open Tuesday, November 5, 7 a.m. to 7 p.m.

MAAACP PROTESTS ARMY'S TESTING OF ENLISTEES

WASHINGTON, D. C.: The Department has employed practices of requiring prospective Negro enlistees to make a score of thirty-nine (39) on the Army "R2" test when while prospective enlistees are only re- quired to make a score of fifteen (15) on the same test.

Upon inquiry we were informed that enlistments were opened to Negroes, which if opened on the same basis for all enlistments, was a democratic victory. Following our policy of investigating alleged discriminatory practices and policies used by the War Department regarding enlistments. The specific discriminatory practice, which we sought to have eliminated, was that requirement re- quired for enlistments were opened on the same basis for all enlistments, was a democratic victory and these can only be attained by individual vote count...

With The Recent reopening of the Brown Bomber Chick-en Shack, local denizens breathed a sigh of rejoicing that the after one more racial (patronage) business had opened for those theatre and night club habitues who desire to enjoy their city has to offer. But the reopening of the Chicken Shack brought also a pang of reminiscence over how disrespectfully the patrons treated it during its early years of operation. This must not happen again.

In order to keep such places from being by any Club the denizens, she patronage, as well as the management, must respect it.

A good start in this direction would be for the musicians playing in such bistros, and the patrons who frequent them, to share their吃饱穿暖, reserves, undue-dedicate high bails and general sympathy of ocupants of home.

WHAT ABOUT YOU?

By Vivie L. Hult

There is a group in the world that seems so different from the rest of us, so much removed from the ordinary. They are the leaders, the politicians, the economists, the lawyers, the scientists, the educators, the doctors, the writers, the artists. They live in the ivory towers of universities, they rule the halls of government, they sit on the boards of corporations. They are the people who have the power to shape the future.

But do they really understand the concerns of the common man? Do they truly care about the problems of the ordinary person? Or are they so insulated in their own world that they can't even begin to understand?

Let's take a look at the common man. He's the one who has to worry about putting food on the table, paying the rent, sending the kids to school. He's the one who has to work hard every day just to make ends meet.

And yet, it seems that the leaders of this world are so far removed from the struggles of the common man that they can't even begin to understand what he's going through.

But it's not just the leaders who are out of touch with the common man. It's all of us. We're all too busy with our own lives to really pay attention to the needs of others.

So let's make a commitment to do better. Let's start listening to the concerns of the common man. Let's work to make this world a better place for everyone.

VOTE ON TUESDAY, NOVEMBER 5.

One of the things that is currently wrong with our country is the fact that we are not taking action against the increasing number of Negroes. In proportion to our population, we have a larger number of Negroes than any other country in the world.

The legal system is not working for the Negro. They are being denied their basic rights and freedoms. They are being treated like second-class citizens. And it's not just in the South. It's happening in the North too.

So let's work to change this. Let's demand that our government take action to ensure that the rights of all citizens are respected.
