A. M. KEARNEYS
LIFE AND WORK

Now, just a few words to the farmer and productive genius— if you are interested in raising the very best of maits, you must grow the very best corn. Never replant corn in the soil it grew in—send to Boston or some other market where they specialize in raising seed corn. This natural world man is first and in charge, the very best of meats, you must grow the very productive genius—if you are interested in raising seed planted in your soil will, with the proper planting, give you a crop worthwhile, and this fed to the stock will give you the best.

Man has inaugurated a medium of service for these three churches.

Without any regular salary I did valuable work silently, efficiently.

As long as 24 months after modest down payment

Save $120.00...Left hand doors only.

A limited number of Servel Gas Refrigerators remain from our recent clearance sale. Servels have no moving parts to wear out because a tiny gas flame does all the work silently, efficiently. Easy-to-clean shelves, space for a bushel of frozen foods, easy pop-out ice cube trays, dew action freshness are but a few of the modern features that make these models real bargains.

Open Evenings.

Speeder's Dream

Pond memory of the Cunningham car, made by J. Cunningham Co., 13 Canal street, was outlined recently when a man from the West picked it out in front of that factory. The man, made by Cunningham 19 years ago, was still in working condition, but the man brough it here to have it pep pep up. The reason was comical. He claimed that the car needed repair, and that the mechanic had bungled the job.

"I used to get 90 miles an hour out of that car, but now it must be 75 miles" was the man's complaint, "So I brought it here to see if you can readjust the engine so that the car will go faster."

The Cunningham mechanism didn't respond to a trip up the avenue to 99 miles an hour, but the visitor was assured in the New York State 90 mph is a fine way of getting around.

The man finally agreed that 75 mph is fast enough.

Up To County

We urge all persons to write to Supervisor Lauterbach to request that he introduce a resolution for County support of the Outlet Improvement Plan, with the visitor was assured that in New York State 90 mph is a fine way of getting around.

"I used to get 90 miles an hour out of that car, but now it must be 75 miles" was the man's complaint, "So I brought it here to see if you can readjust the engine so that the car will go faster."

The Cunningham mechanism didn't respond to a trip up the avenue to 99 miles an hour, but the visitor was assured in the New York State 90 mph is a fine way of getting around.

The man finally agreed that 75 mph is fast enough.

YOU ARE IMPORTANT!

You are important to Christ, because He died to redeem you. Therefore, you are important to Christ, and therefore, important to God. BeCAUSE YOU ARE SO IMPORTANT to God, you are important to Christ. Who died for you... won't you learn more about Him and His Church.

Give Your Child a Catholic Education—A FOUNDATION THAT INCLUDES GOD!
