behind the law that prohibited hospitals from Union organization. Food, clothing, rent money, medical care and other related services were denied to hospital workers. The Union realized that a strike of hospital workers would divide the community and cause undue bitterness and hatred toward organized labor. Therefore, the Union supported legislation enabling hospital workers to organize into Unions, whereas all disputes and grievances would be submitted to compulsory arbitration and prohibiting strikes of hospital workers. In 1959, the N.Y.S. Legislature passed such a law, but only for hospital workers in the New York City area. This law for the N.Y. city workers was brought about by a series of strikes, by hospital workers whose strike was supported and financed entirely by the N.Y. City Labor movement in the neighborhood of one million dollars.

In 1962, the N.Y.S. Legislature had its actions upheld, kept hospital workers in Rochester and Buffalo where a hospital workers organizing committee had been functioning since 1959 in a state of second class citizenship. Immediately after the 1965 N.Y.S. election, the Rochester AFL-CIO, Local #466 organizing committee realized now that since the N.Y.S. Legislature became overwhelmingly Democratic and they felt certain that a State-wide Hospital Workers Bill would most likely be passed, the Union then began immediately organizing community support towards the passage of the Bill before the N.Y.S. Legislature.

The Union sought the support of community and religious leaders and of Civil Rights groups. It is generally known that 75% of the non-professional hospital workers are Negroes and Puerto Ricans. Shortly thereafter, the Bill for Hospital Workers, became law, bringing about a succession of drastic efforts on the part of many Union organizations in Upstate N.Y. to organize hospital workers, a part of their members regardless of race, creed or color.

Lillo also expressed, hurt and indignation, that his organization was questioned, that he had been one of the leading Labor Unions in Rochester, supporting the Negro freedom fight in a local union representing a large percentage of Negroes, for it is generally known that Local #466 has secured many benefits on behalf of its members regardless of race, creed or color.

Within this particular Union, a large percentage of Negro workers have been aggressive and forthright in improving their working conditions and benefits in all matters of economic security, his Union has in its contracts with private clubs, which are not covered by F.P.C. Laws non-discriminatory clauses enabling Negro workers equal job opportunities. They are presently employed, and his local Union (Local #466) should be remembered for the development of Motor Inn Strike, which this Union won, improving the economic lot of 30 Negro service workers in this instance the Silent Color Barrier in the employment of Negro front desk workers was broken.

Local #466 was joined on the picket line by the Local Chapter of the M.A.C.P and other community organizations and leaders of both races.

Auto Excise Tax Repeal

Every new car purchased in the United States has its price increased an average of $225 by the ten percent excise tax paid by the manufacturer to the Federal Government. The auto makers pass the tax on to the buyer in the precise proportion to which they pay it, but because it is levied at the manufacturer level, not at the point of purchase, the final figure on a new car's window-sticker price tag does not show the tax. I strongly favor terminating this tax along with a host of other excises originally levied during World War II and the Korean War in order to help the Government meet the cost of those emergencies. For that reason, I introduced a repealed bill in Congress last week.

Previously, I have offered bills to end excise levies on telephone service; retail cosmetics, leather goods, and jewelry; photographic products; and ticket admissions, when I introduced the bill. I addressed my colleagues and urged their careful consideration of the need to remove this unfair and discriminatory burden on new car buyers. I also pointed out that we have in our area some 7,500 auto industry employees who would benefit by the economic expansion which would result from repeal. Further, I asked Congress to consider the favorable effect additional money left in our communities would have by repealed of this tax.

Excise taxes are a serious threat to continued economic growth, high employment and consumer spending ability. I intend to pursue their progress to you.

Renewal Raises Relocation Fears

A recurring criticism of urban renewal projects is that it forces low-income families from their homes without being blamed for fearing forced relocation of their neighbors at increased housing expense. Third Warders can hardly find decent housing. But schedule the project over a seven-year period to "minimize disrup-
tion from familiar surroundings." They contend that no family of lower rents of will have to move until it can find ten forced on those who must move, good housing elsewhere, or the city itself finds for them. They describe plans for building low-income housing in the renewal area.

People who face flight from their homes, the bulldozers need better assurance. Of the 850 families scheduled to lose their homes, some 7,500 auto industry employees who would benefit by the economic expansion which would result from repeal, would result from repeal. Further, I asked Congress to consider the favorable effect additional money left in our communities would have by repealed of this tax.

Dear Mr. Coles: 

The Rochester Voice of March 27-April 12, 1965 on Page 14 published an article, "Renewal Raises Re-location Fears.

16 April 1965

Dear Mr. Coles:

It was good to talk with you today concerning matters of mutual interest to the community. We are especially pleased that you have consented to serve on NEWS-TRUTH's advisory board as well as to serve as the public relations liaison person for FIGHT. Enclosed are some of our initial announcements about NEWS-TRUTH.

As explained, we will be extremely selective in the type of advertising we accept. (Incidentally, if you know of some person or persons who wish to work with us on a part-time basis to solicit advertising and subscriptions, we will be happy to consider these people. Payment will be straight commission with an attractive percentage that should guarantee quite suitable side income for these people. We can use the same people to work on a similar basis with our other publications, notably "The Greater Rochester Blue Register" (a Who's Who of the community) which is due to make its bow with the inaugural 1966 edition.)

We will be happy to offer you any assistance in your projects and any information about ours—at any time.

Cheerfully and sincerely yours,

Dear Howard:

As you know, I introduced a bill in the 88th Congress for the issuance of a commemorative stamp in honor of Frederick Douglass. In this connection, I thought you would be interested in the attached letter which I received from the Postmaster General indicating such a stamp will be included in the "Prominent Americans" series. As you will note, a 25-cent denomination stamp will be issued soon.

With kindest personal regards,

Sincerely,

Frank Horton

Dear Congressman:

We are revising our regular series of postage stamps and it gives me great pleasure to inform you that Frederick Douglass will be portrayed on the 25-cent denomination. A public announcement will be made shortly. Thank you for your interest in the request that Frederick Douglass be selected for the first day sale when the date and place of issuance are selected.

Sincerely yours,

John A. Gronouski

Dear Howard:

Thank you for your letter of April 22 with regard to the Frederick Douglass commemorative stamp soon to be portrayed on the 25-cent denomination. I am certainly delighted to have this information and appreciate very much your thoughtfulness in notifying me that Frederick Douglass will be included in your new "Prominent Americans" series.

Dear Howard:

Attached is a copy of a letter from Ira Kapenstein, Special Assistant to the Postmaster General in reply to my request that the Frederick Douglass stamp be issued in Rochester, New York.

As you can see, the request will be considered when the date and place of issuance are selected. I shall let you know when I learn the decision regarding this matter.

Sincerely yours,

Ira Kapenstein

April 28, 1965

Dear Howard:

Thank you for your thoughtful and generous telegram. I already have alerted the media to the good news about the Frederick Douglass stamp and hope they gave it adequate coverage.

As I have written the Postmaster General and requested that Rochester be selected for the first day sale of the new stamp, a copy of my letter to Mr. Gronouski is enclosed.

May I ask that you and all those for whom you have been such an effective spokesman in our mutual efforts to have a Frederick Douglass stamp issued make direct contact with the Postmaster General in support of my request.

Your pledge of support is deeply appreciated, and shall do all I can to merit your continued confidence.

With kindest personal regards,

Sincerely,

NEWSTRUTH

Dear friend of the-truth-in-news,

After a year of brainstorming and research in depth, we are ready to launch the stimulating new concept of a high-level community news organ - NEWSTRUTH.

The names spells its purpose. NEWSTRUTH is designed to fill a longstanding vacuum—a publication dedicated to the thinking people, the opinion leaders, the sophisticated who seek to examine the unadulterated facts (insofar as it is semantically possible to present them) concerning our potentially great community—and their relationship to changing events of paramount importance to today's complex society.

NEWSTRUTH will support the great American dream of cherishing all freedoms—especially those that are necessary to preserve and strengthen the basic principles of our great democracy. NEWSTRUTH will seek to be nonpartisan in every area of controversy; strive to inform not brainwash, to enlighten, not to dominate, to serve the readership not to lead it. Every important article will be presented in its entirety.

Mr. Hatcher had been active in national and California governmental affairs until 1960 when he accepted the invitation of President-elect John F. Kennedy to join his White House staff. Prior to that, he served as Assistant Labor Commissioner of the State of California and was a member of the staff of Federal Judge Oliver J. Carter in San Francisco, California.

A one time newspaper man, he was editor of the Sun Reporter, a San Francisco Weekly, in 1947-50. He is a member of the National Press Club, Washington, D.C.; American Academy of Political and Social Sciences; and the Public Relations Committee of the National TMCA.

Born in Princeton, New Jersey, 42 years ago, he attended the local public schools and Springfield (Mass.) College. He served three years in the Army during World War II.

He is married to the former Ruth Avery of Middletown, New Jersey, and has eight children ranging in age from 1 to 16 years.

Enjoy that REFRESHING NEW FEELING you get from Coke!

with both pros and cons. Circulation will be selective and limited. A competent honorary board of advisors has been selected to determine NEWSTRUTH content. The board will reflect a flexible policy based on the wishes of its readers. As a well-informed community opinion leader, you are hereby invited to become a charter subscriber to NEWSTRUTH. Initial circulation will be limited to the first 3,000 invited subscribers in the order in which advance subscriptions are received.

If you want to assist in expediting publication of this new, open-minded voice of Greater Rochester thinkers—act right now! Clip and fill out the subscription blank below and enclose $5 for a year's subscription. Full refunds, on a pro-rated basis, will be made at any time you request.

Lawyers Group Urge 'Rights' Trial Changes

In the wake of the "outrageous" Alabama verdict in the Liuzzo case, the New York State Association of Trial Lawyers yesterday called upon President Lyndon B. Johnson to ask Congress to immediately pass legislation making murder committed while interfering with civil rights a Federal offense and requiring that trials involving such crimes be held in Washington, D.C.

In a letter to the President, Herman B. Glaser, association president said: "It is impossible to secure a proper indictment and a proper prosecution in a state court like Alabama in such cases. It is impossible to secure a fair trial in a state court like Alabama in such cases. Washington, D.C. is a federal territory, not a state. Accordingly a trial held there is likely to be a more impartial and fairer trial."

Glaser also stated that his association is requesting the Alabama Bar Association to pass upon the conduct of Matt H. Murphy, trial counsel for Wilkins, during the trial.

"More specifically," Glaser said, "request is being made for a reexamination of the character and fitness, as a lawyer, of Murphy, and for an order holding him in contempt of court. Murphy's conduct during the trial was improper, reprehensible and base. It was conduct unbecoming a lawyer and such as to demean the image of justice," Glaser said, "The Alabama Bar Association should set a proper example by taking proper action under the circumstances." Glaser concluded.

Beauty Talent Show

Sunday at Franklin L. Burns Elk Lodge, second Elk Lodge in Rochester, held their first Beauty and Talent show in the Oxford Lounge. The contest was well attended and the winners of the local contest are eligible to compete in the State Beauty and Talent Contest, held during Elk convention. The winner of the contest was Miss Costeen Wilson, sponsored by the La Fran Beauty Salon; Runner-up was Miss Joyce Knier, and third Miss Doreen Cromartie. The winner of the Popularity Contest was Miss Doreen Cromartie. All of these girls will compete in the State contest. Benjamin Keeton, Assistant director of Beauty and Talent, was in charge of the show. The judges were: Mrs. Connie Mitchell and Mr. J. Mitchell, Maxwell Walters, and Deputy Maxwell.

“...the heart of the question is whether all Americans are to be afforded equal rights and equal opportunities, whether we are going to treat our fellow Americans as we want to be treated. If an American, because his skin is dark, cannot eat lunch in a restaurant open to the public, if he cannot send his children to the best public school available, if he cannot vote for the public officials who represent him, if, in short, he cannot enjoy the full and free life which all of us want, then who among us would be content to have the color of his skin charged and stand in his place? Who among us would then be content with the counsels of patience and delay?”

City Manager Arthur B. Curran, Jr., announced the closing of a land transaction in which the city sold 16.8 acres along River Boulevard to the University of Rochester for $150,000.

Asst. Corporation Counsel Frank J. Puccia handled the sale, which will allow the U. of R. to continue its dormitory expansion program. Under terms of the sale, the university must: 1. Begin construction within a year. 2. Complete construction within 5 years. 3. Devote the property to "the furtherance of higher education" for 15 years.

The property has been vacant.

The City has renewed for one year its ambulance service contract with National Ambulance Service.

City Manager Arthur B. Curran, Jr. said National will pay $1 for the privilege of providing such service within the City. The contract expires next April 30. All rates are the same, except that National will be permitted to charge a maximum of $8 for each administration of oxygen authorized by a medically trained person. This compares with the rates charged by ambulance companies for such service outside the City.

"I am glad to announce that the City will have saved $35,000 a year for each of the four years of this contract," Curran said.

"The taxpayers, I know, are pleased by this saving."

Mayor Frank T. Lamb is heading a party of local officials that left Rochester on May 5 to meet in Washington with Gov. LeRoy Collins, head of the Community Relations Services offices.

The group consists of Lamb; Asst. City Manager Seymour Scher; Schools Supt. Herman Goldberg; William Bus, director of the City-County Youth Board; Dr. Walter Cooper, interim associate director of Action for a Better Community, Inc., the local anti-poverty agency and Laplois Ashford, deputy city public safety commissioner.

Collins invited the local representatives to meet for a discussion of programs which they have urged--programs submitted, for example, by ABC for federal review.

I LIKE WORKING IN A HOSPITAL, but it seems to me that everybody else earns more, has better hours, and more job security!"

Is this your story, too?

Hospitals today are filled to capacity.

More people can afford hospital service than ever before—more people have health insurance.

Yet, hospitals pay their employees less than any other institution or business! And hospital employees usually have poorer job conditions, fewer fringe benefits, and less security than other workers have.

The traditional excuse hospitals give for their smaller paychecks and less favorable working conditions is that they are "charitable" institutions.

But "charity" that is compulsory, "charity" that lowers an individual's or a family's standard of living is not real charity! An employee of a "charitable" institution should not be forced to pay a part of each patient's bill! But that is what the hospital worker does every day he earns less or receives fewer benefits than workers in other fields.

Hospital employees are told they are "special" people — different from others who work for a living.

Are you working for peanuts?

Are your gripes on the job ignored?

A New Day is Coming!!!

In a way, hospital employees are special. They like to help sick and disabled persons.

Their help, however, is not supposed to be financial!

And no landlord gives the hospital worker a "special" rent...

The butcher has no "special-to-hospital-employee" prices on display...

Department stores don't lower the price tags on clothing and household goods when they see a hospital employee coming!

Insurance, taxes, everything takes the same toll from everyone's paycheck!

As a hospital employee, you are well aware of these facts. You should also know that:

TODAY YOU can get the fair treatment you deserve only by being organized. Hospital employees need a union to speak for them.

Today, 16,000,000 workers have found that being organized, speaking together, is the only way to win and keep:

- Adequate wage rates
- A reasonable work week
- Overtime pay
- Paid holidays, sick leave
- Generous, paid vacations
- Job security and many other benefits!
