"I'm going to be straight with you. If we don't change the situation, we're going to have a revolution."

- Dr. Martin Luther King Jr.
The Romans Had A Name For It

Karmelite, a name that was often associated with the religious order of the Carmelites. Karmelites were a group of Catholic religious order that were known for their asceticism and devotion to prayer. They were also known for their involvement in missionary work and the promotion of education. The name "Karmelite" is derived from the word "karim" which means "blessed" or "gracious" in Arabic. The order was founded in the 12th century by St. John of the Cross and St. Teresa of Avila. They are also known for their connection to the Holy Land, particularly the Mount Carmel region where the order took its name from. The Karmelites played a significant role in the history of the Middle East and the development of Christian thought in the region.

Textbook Tells Role of Negroes

By LARRY JOLIDON

Equal opportunity to

to Governor Rockefeller means action.

discrimination in the sale or rental of

private housing has been banned.

And the same has held for

commercial space.

The Governor has sponsored new laws to

discriminate in loans for the purchase

or repair of private housing has been banned.

And he has set up new educational and

training programs.

In New York City, for instance, the

Department of Education has introduced

new textbooks for Negro history into

the public school classrooms.

It is estimated that Negroes have

been given a mere 25% of the

Negro history textbooks in the past

twenty years.

The textbooks now available are

selected by the Department of

Education, and are thought to

be representative of the best

published material available.

The new textbooks are

intended to help

students understand the

history of Negroes in America.

The textbooks are

designed to present

the story of the Negro

in American history in a

fair and balanced manner.

The textbooks contain

material on the contributions of

Negroes to American history,

as well as on the problems

and achievements of Negroes.

The textbooks are

intended to be used in

grades 7-12, and

are expected to

be adopted

by school districts

throughout the state.

The textbooks are

expected to

be available

in

a nearby

bookstore.

Textbook Tells Negro Roll

(Cont, from P. 5)

Technical and Industrial High School.

Dr. Braddock said it involved basic courses and technical training, with a strong emphasis on practical skills.

"Negro children are entitled to an education," Judge Curran said.

"But if they don't have the opportunity to participate in the educational process, they will never have the chance to compete in the marketplace.

"There is a need for more textbooks that reflect the experiences of African Americans. The United States is a land of diversity, and our textbooks should reflect that diversity.

"I am pleased to see that this new textbook is one step towards实现更包容的教育内容。"

THE NEGRO FAMILY IN ROCHESTER 23

This statue of Frederick Douglass, famous Negro leader, for 42 years last stood at St. Paul St. and Central Ave., until it was re-moved by city workmen. The statue was stored in a carting company's warehouse in North Washington Street, marking the first night it had been under a roof since it was turned over by its sculptor more than four decades ago. Hudson & Bohrer had charge of the weighty visitor.
