LIGHTNING STRIKES MORE THAN TWICE!

We'll... what can you buy for 64 million dollars?

Just as you also intend to meet the needs of your family, a planned program of plant expansion is a test for the future which makes it clear that we can always be ready to supply the growing needs of our customers for instant energy.

We thought you might be interested to know what we plan to build, and buy, with our $135 million construction budget of $64 million dollars.

Approximately $23 million of this total will go toward the construction of the Genesee Nuclear Plant at Oxford, N.Y., and its related transmission facilities. Plant startup is scheduled for 1969.

Other additions to the electric system during 1963 are estimated to cost $100 million. It will add or expand 1,380,000 kilowatt generating capacity out of the way of new equipment and highway projects.

New construction to serve our gas customers is estimated at $14 million, of which $18 million is for mains and other service installations.

$38,000,000 will be needed to relocate service by highway improvements. Steam service will be improved by an investment of $1.3 million.

As soon as possible, we hope to be able to keep people of the Western New York area with us in the industrial and agricultural communities which we serve.

The Man Who Started All

In conclusion, as a New York State Representative and holding the title of Vice-President of the State Legislature, I would like to say that I am very proud of the fact that the old, crooked people, the poor, the sick and the unemployed have found in me a friend who will be with them, who will help them and who will work for their welfare. I have always believed that the State of New York, and the nation, should be the responsibility of those who want to work and help others. I believe that we must have a stronger voice in the State Legislature and that we must have better representation in the State Senate. I have always believed that we must have a stronger voice in the State Legislature and that we must have better representation in the State Senate.

The Cry of The Ghetto

by Maxwell L Walters

Par from the melancholy region of "harry," "dooz," the raucous hollers of the crowd, is the cry of the ghetto.

It is whispered by the trees which now stand barren and bent below the cold briny breath of winter -- help us.

It is raised by the empty street, the vacant lot, the vacant fall of the season, the broken windows, the broken homes, like the broken promise of a better year -- help us.

Like the Auntie Chees, its hand raised to the roping of a shot gun, it cries out an appeal to all who pass the boarded up building.

A flanger of light-fingers (a brush foundation) plucks words from the mouths of those who love their children and want to learn that they will get the best education possible. Others, to the parents who are holding their maimed and mangled... It is our beloved children, who want so desperately to obtain a good education.

It is the winter song of the city. It is weeping by the thousands for the opportunity to contribute to their children's future, a BETTER, and GREATER DAY.

We, the parents and taxpayers, are merely being robbed and openly chastised by the City Officials.

The City Officials, Board of Education, and those elected as public officials are in dishonor, and are the loose and dirty manipulators of our public morality.

We, the parents and taxpayers, are being RATHER CARELESSLY ORIENTED.

They are allowing their children to be disarmed; a THOUSAND if not millions of the children are being RATHER CARELESSLY ORIENTED.

The children are being misled into believing that the principal of a school, who is being terrorized, is a child, who is being found guilty of an offense.

If it takes MARCHES, if it takes HANG-INS, LAY-INS, or any other kind of DOING, we are prepared to go to any length for our children, to have them educated by a fair and just system of education for our children.

Keep Your Eyes on The Prize

President's message is a stirring, sweet one that we are not going to forget. The only thing that a man can do is stand in the street and watch him. He can't do anything for me. But they had the right of being there and having their own way. I just had to do what I had to do.
