FRANK CARROLL GETS THINGS DONE

FRANK CARROLL is a full-time Assemblyman. In the two years Frank Carroll has represented you and the 133rd Assembly District, he has been consistently on the front line of the battle to get things done for the people of this district.

When you think of Frank Carroll, you think of a man who has been active in government and politics for many years. He has served as a police officer, a chief of police, and a member of the State Assembly. He has been a member of the Gates Police Department for over 30 years and has served as a member of the Assembly for the past two years.

He has served as a member of the Assembly for the past two years and has been a strong advocate for the people of the 133rd Assembly District. He has been a leader in the fight for better public schools, higher wages for police officers, and more effective law enforcement.

More happy things have happened since I opened this camera store. I have been doing well and what a surprise it is that I am doing better than ever. The Rochester Camera has been a success. In fact, I have been in business for 9 years and business has been better than ever. In fact, I have been in business for 9 years and business has been better than ever.

THE THIRD NATIONAL CONFERENCE ON BLACK POWER was held at the Convention Center in Rochester, N.Y., Aug. 8-12. The conference was sponsored by the National Council of Negro Women and was attended by representatives from all sections of the United States and Canada. The conference was well attended and the atmosphere was one of enthusiasm and commitment to the cause of Black Power. The speakers included Dr. Martin Luther King, Jr., who delivered the keynote address, and Stokely Carmichael, who addressed the third day of the conference. Other notable speakers included Eldridge Cleaver, who delivered a powerful speech on the need for Black Power, and Angela Davis, who spoke on the importance of education and the role of the Black student in the struggle for Black Power.

Begins New Year

Colgate Rochester Begins New Year

Last week I returned to the city of Rochester after visiting two of our largest cities, Chicago and Los Angeles. The city of Rochester has a large population of 250,000 people. It is one of the largest cities in the United States and is known for its beautiful parks and lakes. It is also known for its strong community spirit and its commitment to the cause of Black Power.

We are happy to point out that we have received a number of orders for our new camera models. We are very pleased with the response we have received and we are looking forward to a very successful year. The new camera models are very popular and we are confident that they will continue to be a success.

The flashcube. You just point it at your subject and you are ready to take pictures without touching a button kind that is more like the button kind. This we wouldn't change for anything. This we wouldn't change for anything.

**Refugees of Resurrection City, U.S.A. for Human Rights**

Relatable, poor whites, Mexican-Americans, Puerto Ricans, blacks, and others who have come here to have a chance to live. We came because of S. Martin and T. J. Motley's vision of a movement to their goal of national autonomy. Some of us came because we had no choice—nowhere else to go. We could see that we were not being asked to sacrifice, dying slowly in the midst of this decade of war, racism, and poverty, some of us came to join the people of a future society in this place.

Refugees of Resurrection City, U.S.A. will be built. This city of the future will be built by and for the people who have been denied freedom and security. It will be a city of labor, where everyone will share in the work of building and maintaining it. Refugees will be able to create their own community through cooperative endeavors.

The people will recreate the atmosphere of Old Age Security. They will have their own language and culture. Refugees of Resurrection City, U.S.A. will be built by and for the people who have been denied freedom and security. It will be a city of labor, where everyone will share in the work of building and maintaining it. Refugees will be able to create their own community through cooperative endeavors.

The building of this city will be a symbol of the new society. It will be a place where people can come together to share their visions and work towards a better future. Refugees of Resurrection City, U.S.A. will be a demonstration of the possibility of a better world, where everyone has a chance to live and be free.

as an expert in the area of legislative labor and industry. He has established a reputation of balancing the interest of labor management and the community which will result in the best social balance possible in the State. On August 2, 1967, in Detroit, Michigan, State Senator Laverne accepted the Intergovernmental Award for the Urban Development Intergovernmental Award by the United States Department of Housing and Urban Development (HUD) on behalf of his state. The herculean efforts of Senator Laverne’s background shows a broad interest in youth, community, and civic affairs which has been channeled into legislative work. He is an attorney and has been on a new career in politics. He has made many contributions in legislation. He has sponsored and worked on most of the Court reorganization legislation including the New York State Family Court Act and other legislation in this area. He has become recognized

THE FREDERICK DOUGLASS VOICE
A seminal event, a thing to make all decent people angry, is happening in the Michigan region called Flint. Two to three thousand people — most of them children — are dying of hunger every day, and the only food for them are reception points set up by the local papers.

Unless there is action — right now, there won’t be just 3,000 deaths a day, but 30,000 a day, a million a month. It’s all due to the world’s governments standing on the sidelines. Their talk. Their words are repeated, daily. Enough is enough. Hunger, bombings, and the atrocities continue.

Whatever it is, it is not just black people! What CAN we do?

The young, the old, the middle-aged, in the world, but nowhere else. One more such massacre with African Americans participating, really wants to turn over our world. But when the world goes white, if the United Nations does nothing, we can get that food.

The Black Community

Today our lives are very much affected by radio, TV and the news. As you may have noticed, the Black press is needed. For any media to be successful, it is necessary to have a media that is written by one of Rochester’s most well-known black editors. The only way to do this is to work with the black paper. We need your support.

Would You CARE?

Water Pumps Needed

We would like to help a hundred-dollar fund for a WATER PUMP in Biafra. Money sent to the Rochester Violent Relief Fund will be used to purchase the pumps. Pump numbers will be sent to CARE. We also welcome your contributions.

Rochester Declaration of Democracy

The right to full enjoyment of all public facilities and prerogatives is an inherent right of all American citizens, sanctioned by our laws and by the highest principles of our democratic society. It must, therefore, be granted and enforced not only by the so-called authorities, but by all the people of Rochester.

We, therefore, pledge our personal acts and through our respective organizations — from police and pests, labor halls, churches, business institutions and offices of government — we will do everything within our power which will enable these principles to be the way of life in Rochester.

In our daily lives, we pledge ourselves to work vigorously to demonstrate that Rochester wants no race-inspired violence, but rather, that Rochester is determined to be a city of democracy and tranquility, where all young people of both races, without garb of race, creed, or color, may walk with heads high, be made whole, with complete integrity, no matter where they work, play, live, pray, or go. This is for our Firm and freedom belief and our open declaration of action. We invite all Rochesterans to join us in making these principles a firm and central force in the life of our city.
