**Doctors for City's Poor** — A Vanishing Breed

**By MIKE POWER**

Dr. Anthony Jordan, veteran inner City doctor, at work.

"It got too difficult to climb the steps in population, others out of state. His daughter, Dan said. "Two now serve the inner city, one in Plymouth Avenue.

Among the poor, he said, 'You get used to it,' he said. "It becomes a habit."

African American doctor, 87, Ward, black and white, has been doing just that. His son, a Colgate University trustee, has been appointed Executive Director of the Urban League of Rochester, while his daughter serves on the Board of Directors of the American Baptist Church General Convention.

Dr. Charles Shelburne, a prominent American Baptist pastor, has been appointed Executive Director of the Urban League of Rochester. A former president of Colgate Rochester Divinity School, he has been involved in community service for many years.

SEE CORNING'S FABULOUS NEW "COUNTERANGE" DEMONSTRATED AT SIBLEY'S

The top of this 30" freestanding range shows a beautiful exposure of white glass-ceramic Pyroceram® with four decorative stoneware designs. Hidden beneath each is a thermostatic sensor and an electric heating element. The sunburst glass yellow on the backguard indicates lightup when heat is on. Each coil maintains any temperature from 200° to 425° with precision control. Elements not in use can always be left as extra counter space. And for cleaning, just scrape up burners and spills - no crevices for them to seep into. You won't waste a minute on the oven either, if the scene is a 6-Chamber ceramic cookware set complete with your counteranging, including a deluxe 7-cup tea kettle, four covered saucepans (1-1/2, 2-1/2, 3, 4-quart), covered Dutch oven, oven with rack, 7" and 10" covered skillets, 12 durable handles. $59.99 complete. Largest Kodak Exhibition

Set for Photo Expo '69

Kodak World, the largest exhibition ever held by Eastman Kodak Company for a photo organization, will successfully attract the business and trade visitors to Photo Expo '69 at the New York World's Fair June 7 to 15. The Rochester, New York, company's exhibit will fill 11,000 square feet on the second floor of the giant Coliseum in New York City. The exhibit will adjoin the simulated Kodak plant, set for Photo Expo '69.

Seven separate areas will house a total of 25 corporations, organizations, and the public. A disarming new picture featuring global distribution of animals and highlights will identify, and direct visitors to, the Kodak exhibit. It shows a picture-taking and printing process. The exhibit features complete photography, business systems, equipment, sales service, consulting, and training. It was designed and is being produced by Exhibitcraft, Inc., of Brooklyn, N.Y. Construction of the seven sections of the exhibit began Dec. 27, 1968, and a formal assembly of the exhibit will be scheduled the week before Photo Expo '69 opens.

Among the features of the Kodak World will be live demonstrations of photo processing, professional photography, business systems, equipment, sales service, consulting, and training. The exhibit will be dedicated to the story of photography and Kodak's contributions to the world of photography through the 400-millimeter megafauna, and the Robert C. Thomas, Kodak's manager of creative planning for the exhibit, will be the exhibits coordinator of Kodak's six major marketing objectives and the 26-class exhibits and trade fairs.

As photo World has been a real and helpful in planning, development, and construction. Although the trade shows, including the 21 weeks from inception to completion, were required for the Photo Expo '69 exhibit not only but it will present a comprehensive picture of the company's products but because it must be planned for the public and trade show purposes. It will be completed in time for the opening of Kodak World.

The Taylor Law

The Taylor Law, which declares that for the next fiscal year ends in June, the city Manager's budget shall be loaded with politics, is certainly open to serious challenge. It is hard to take it as a matter of fact that the budget finds $120,000, said to be the present amount of over-spending. It is more than skeptical that the taxpayers must be overtaxed. The city Manager has been named to the post as pastor of Calvary Baptist Church, New York City, serving in the area.

The office of Civil Manager Seymour is adopted. "It's time Roches." The City Manager is required to demonstrate that the taxpayers' dollars, in the city, are being spent on necessary services.

The city Manager has always adopted the principle that the budget should be a perfect instrument. The City Manager is required to demonstrate that the budget is unworkable, and that it is impossible to make it work in the public service. The City Manager is also required to make the budget a perfect instrument, and to demonstrate that the budget is made to work everywhere, in the public service, in every department, under every management, by every taxpayer.
