"New Kodak Projection Cartridges" End Film Handling Forever

Screening your 8 mm movies is now as easy as turning pages, with the introduction by the Kodak Company of 50- and 100-foot reloadable projection cartridges that will film handling forever.

To be shown for the first time at Photo East at the Edison State Building, the cartridges will be demonstrated by the Kodak representative and Robert A. Davis of the Home Movie Association of New York City, who will also explain the operation of the system.

"End Film" cartridges are now available in single and multi-projector packs. They are machine interchangeable on cameras of many makes, and industry use according to Robert A. Davis, will be limited only by the imagination of those who use them. The cartridges are machine interchangeable with any existing 8 mm projector, except for the automatic film advance mechanisms that may be found in various models of projectors.

Handling "End Film" cartridges is very simple, they never need ironing, and industry use is certain to become widespread. The cartridges are available in single and multi-projector packs, and will be demonstrated by the Kodak representative and Robert A. Davis of the Home Movie Association of New York City, who will also explain the operation of the system.

**Teachers Earn Credits in New Rochester Summer Program**

Rochester—A joint effort to broaden co-op experiences for high school students and local business, has been launched by the City School Board, the Monroe County Industrial Commission, and the Monroe Community College. The result of several months of planning, it is announced by Horace D. Hurst, president of the city, and chairman of the local CCPC management council.

The program contains two parts: one to be offered by the Monroe County Community College and the other by the local business community. The teachers, from elementary and secondary schools in the city, will take full-time jobs in local businesses and will, in effect, work two jobs for their pay. The job will be arranged by the school rather than relate to the subject taught at school.

The participants will spend up to ten hours a week in the local business orientation program, and up to 30 hours a week will be spent during working hours as paid employees in a special graduate credit course taken at the University of Rochester or some other institution.

The second place of their investment will be in the fall, private part-time jobs, open to elementary school students who would provide the students with the opportunity to couple work experiences with their classroom studies and to remain in touch with their school performance. The problem of young teachers is a serious one, and the program aims at solving the problem. Industry is planning to set aside two or three positions in the city, and a school district will be assigned to direct the teachers in their program.

**Participating Companies and Each Teacher Will Be Asked to Account for the Work and the Experience Will Be Recorded.**

Our "long-term goal is to have all the students enrolled in the program, and the teachers will be asked to report about the work and the experience recorded.

The program is being handled by the Monroe County Community College.

**CONCERNED WITH STUDENTS FROM MIDDLE AND LOW INCOME FAMILIES, FROM URBAN AND RURAL AREAS.**

A graduate of Virginia Commonwealth University, Ms. Hurst has been a member of the Board of Education of the City School District of Republican for 12 years. In 1961, she was appointed to the city board, and in 1963, she was elected as a city councilman. She is a member of the National Association of Secondary School Principals and the National Education Association.

**Claire J. Hurst, a four-year-old program coordinator for the Monroe County Youth Board, has been named as a member of the University of Rochester's Board of Trustees.** Before coming to Rochester, she taught high school students in North Carolina and was a member of the National Association of Secondary School Principals.

**News from the University of Rochester**

Two new Afro-American history courses will be among those more than 100 course offerings this summer at the Rochester River Campus of the University of Rochester. One of the courses will cover the black men's experience in the United States, while the other will deal with negro women in the United States and in Africa. The courses will be taught by William B. Douglass, the University of Rochester's full professor of Afro-American history, and by the late Dr. Charles C. Dinkins, a doctoral candidate in historical African-American history. The courses are open to all students, both undergraduate and graduate.

The new Afro-American history courses are part of the African-American studies program, which is being developed at the University of Rochester as a major focus of the University's educational programs. The program, which was initiated in 1965, is designed to provide Afro-American students with a comprehensive understanding of African-American history and culture, and to prepare them for careers in a variety of fields.

**Columnist Rowan Speaks at M.C.C.**

The 6th Annual commencement of the Community College of Rochester, was held in the Rochester Auditorium on Friday afternoon, June 6. The keynote address was delivered by Mr. Rowan, 41 year-old columnist who has written for more than 1,000 major newspapers, will give the commencement address. Dr. Rowan, an educator at the University of Rochester, is also the author of "The Art of the Column." The program includes a special Backyard Pool Program, which will be offered to applicants in the summer session.

Dear Fellow Citizens:

Dear Mr. Coles:

We know that the CEU, which is a former member of the Navy's technical and professional training at the Naval Training Center, Great Lakes, Illinois, where he will receive six weeks of military and naval indoctrination. Upon graduation, he will be sent to a cruiser or destroyer in the Sixth Fleet. He must commit himself to another three years of military service.

Curtis, 19, son of Mr. & Mrs. W.A. Curtis, of 127 South Park Avenue, Rochester, is a teacher in the Jefferson Road School District of Rochester. He has also served as a branch manager of the local branch of the YMCA and as a member of the local Boy Scout troop.

May 12, 1969

Fritz J. Simonsen, as- 
sumes the position of 
name director for 
Day Camp Arrowhead, 
for boys 7 through 14, which will be held at the Campsite on Lake Ontario.

The appointment of Norman M. Gurley as 1969 camp director for Day Camp Arrowhead has been announced by the YMCA. Mr. Gurley is 24, and has been a member of the staff since 1966 and has been a counselor for the last 12 years.

Dear Mr. Coles:

I've also enclosed P.O. Box 3033 Monroe County.

If I may ever be of assistance, please don't hesitate to ask. Sincerely,

Norman M. Ludlow, Director of Public Relations

City of Rochester
May 12, 1969

Mr. Howard Coles,
Editor
Frederick Douglass Voice
P.O. Box 3603
Rochester, New York

Dear Mr. Coles,

I deeply regret the difficulty we encountered on Wednesday, May 7. We, the Monastery Neighborhood Council wished to introduce to every segment of the community the help of business and industry, of public and private organizations, and of individual citizens. The 1967 Summer Youth Opportunity Program proved that Rochester's community can and does respond to the needs of its youth. That we move forward.

Sincerely,

Frank T. Lamb
Mayor

The Young Men's Christian Association of Rochester & Monroe County

TOURNAMENT FILM PRESENTED — Central Intercollegiate Athletic Association Commissioner William T. Johns (left) receives Kodak film of the association's 1969 basketball tournament, held in March in Greensboro, N.C., from Charles B. Fitzhugh, director of public affairs planning for Eastman Kodak Company, Rochester. City beat Norfolk State, 61-50, for the championship of the association, composed of 18 historically black colleges. Maryland State beat Winston-Salem, 89-88, in the tournament consolation game.

In the absence of a meeting, this letter is being sent to inform you of Little League activity and to encourage an opportunity to share in it.

The Third Ward Little League has been in existence in the block for over three years. The original members are four-year-old boys, and the league has grown to include players seven years of age. It is now scheduled to start June 21 on the North Street playground with eight teams in the Senior Division and two Senior Open Division teams. The Third Ward Little League is composed of experienced managers and coaches. Rocky Simmons and Clarence McDaniel have come over from the Third Ward and Bill Feurer and Louis Wright are presently participating. The league is available to arrange its schedule to start June 21 on the North St. playground with eight Little League teams and two Senior Open Division teams. Finding this league depends entirely on finding enough managers and players.

If you have any questions, please pass the word to your League manager, who will help you in your effort to have Little League go to the children in your area. They need more volunteers as they are playing against the best teams in the city.

As the assignment of leagues is done to last week, and since many uniforms and equipment are needed, a list of the necessary items in stock is enclosed. As the league expands, the Little League should be opened to other organizations, in the area, it seems only right that in supporting such organizations we give our own money, efforts, and time to help support this major pastime of the community. Our downtown stores carry the goods of making such items available, etc., etc.

The schools and homes are doing a magnificent job in helping to make the Little League worthwhile in selling tickets or commercial goods. Only a small portion of this support is received. As the season goes on, I hope you will get the word to your neighbors that Little League is the way to invest your money and effort. As you are doing your part, I would like to encourage you to help make Little League a success this summer. They need many more volunteers, and I believe this a worthy cause.

Sincerely,

P. S. Kimmell,
President.

\textbf{THE FREDERICK DOUGLASS VOICE}

\textbf{Black Power}

\textbf{35 Years of Service - Subscribe Today -}

The Voice should be in every Negro home every month. — Why? Because from its inception it has accomplished the following in the interest and welfare of the Negro people of this community:

1. It has given part-time employment to 16 newsboys and five agents.

2. It is the only reliable and dependable colored newspaper in Monroe County for Negroes by Negroes.

3. It has been the only outlet in Monroe County through which the Negro has the opportunity to publish his social, religious, political and fraternal news.

4. It has urged the Negro to build and support his own businesses.

5. It has urged the Negro to spend his money where we as a race receive some returns.

6. It has sponsored the idea of Negroes centralizing their purchasing power.

7. It founded the Afro-American Cooperative Buyers' League of Western New York in 1934, adopting the slogan "Spend Your Dollars Wisely."

8. It has demanded an investigation of discrimination charges and assault charges at the N.Y. State Employment Office, receiving the complete cooperation of the honorable Governor Lehman and Elmer Andrews, head of the State Division and local manager Paul Smith.

10. Promoted the work of the National NAACP and the local unit using news releases constantly from general headquarters.

11. Spent $2500 with local orchestras and bands, $1280 with out-of-town bands in the promotion of charity and benefit dances and gave away $162.00 in prizes to the dancing public.

12. Promoted the work of the Rochester Civic Improvement League, one of the oldest Negro organizations in the city.

13. Urged, through a representative speaking before the City Council, that colored nurses and interns be admitted to city-taxed hospitals.

15. Originated movement to move into 7th and 3rd Wards.

16. Urged appointment of Negro Election Inspectors in both major parties as well as workers at general headquarters during campaigns.

17. Promoted goodwill and cordial relations and cooperation between all races.

18. Contended at all times for better jobs.

19. Has stood for law and order at all times and exposed and unveiled all injustices, malpractices, immoral, unfair, and deplorable conditions existing in this community.

20. Has contended for more colored school teachers in the public schools.

21. Has protested use of such books as "Black Sambo" and others of like nature in our school system.

22. Asked Har't's Food Stores, Inc., to hire two Negro clerks in 1936 for the first time.

23. Conducted Survey of Negro Census in City of Rochester which was approximately 3,268 in 1940. Now 65,000 to 70,000 in 1969.

24. Spent two years on an intensive Housing Campaign during which time a Housing Survey affecting 169 Negroes was made as well as noticing conditions affecting other races.

25. Received appointment by the City Manager, Harold Baker, to the Citizen's Housing Committee, representing Negro people of Rochester which was the first recognition of a civic nature given the Negro in 20 years.

26. Housing movement received endorsement of numerous organizations.

27. Published 1,000 Revised Housing Surveys given and sold to the public.

28. Recommended Housing Survey and stipulated that five Negroes be appointed on the Survey with the result that two Negroes, Donald Swan and James Quamintia, received an appointment.

29. Founded the Rochester Negro Housing Committee.

30. Acted in Rochester Negro housing case of the T.M.C.A.
Has Anybody Here Seen Mr. Green-Backs??

Here's a man who speaks for the poor-apparantly, courtesy for the poor blacks. We guess there ain't no other man in this great city. Some friends dropped by the other day to find out more about this great man—Mr. Green-Backs?

Here he teaches blacks how to enjoy the U. S. to the fullest. He's a ''teacher of sorts'' at the moment. Our friends are thinking of a trip to the city. They want to meet this great doctor and go with him to advise him with his plans to improve the mental strain and social problems of the poor people around here. Apparently...most of his patients are poor. They told us that he has gone to teaching him and we do truly sympathize with him and his poor brood.

Word has just reached us. Word has just reached the community. Our friends are thinking of a trip to the city. They want to meet this great doctor and go with him to advise him with his plans to improve the mental strain and social problems of the poor people around here. Apparently...most of his patients are poor. They told us that he has gone to teaching him and we do truly sympathize with him and his poor brood.

The film that's made for the camera that's made for the film.
