BUFFALO - one of the 26 Rubella (German measles) this winter by administering Rubella (German measles) vaccine. Dr. Wendell R. Ames, Medical Health Director, said the infectious spread of the disease will be reduced Saturday (November 7) throughout dry and county. For information, call the Health Department, ext. 2878.

Against Rubella (German Measles), Urge All Parents to Have Their Youngsters Immunized.

RUBELLA SHOT — Dr. Wendell R. Ames, Medical Health Director, demonstrated use of jet injector gun which will be used to administer Rubella (German measles) vaccine at mass clinics (Ellis to Linell Green, T., 6t West High Terrace, Rochester). The clinics were open to the public, with the clinic at the Monroe County Health Department.

One of the best ways to break the spread of the disease is to immunize children who are in the early age of their mental development. In 1966, John Van Buren, who teaches there, estimate that 50 rubella children among its 2,500 students which have the infection. He said that a great mistake. I think he feels the burden these children are feeling,' Dr. Van Buren told the parents.

The 'Day Care Training Center for Handicapped Children helps these children. They learn the cost of educating these children. The program will help to prevent the spread of the disease. The program will be implemented in the fall.

The NAACP is sponsoring 26 clinics throughout the state to provide information about the prevention of the disease. The clinics will be held in Rochester, Buffalo, and other cities. The clinics will provide information about the prevention of the disease.

A brief look at the current social issues and the ways in which these children will influence the world. The program and Barbara Novick, a social worker, said: "We believe that the program will help to prevent the spread of the disease. The program will help to prevent the spread of the disease. The program will be implemented in the fall."

"The Flower City Conspiracy"

Six of the eight persons on trial in Federal Court on Monday of this week admitted entering the Federal Building over the Labor Day weekend where they destroyed certain records belonging to the FEDERAL GOVERNMENT. I attended the trial along with other members of the press radio & TV and found the proceedings to be very interesting.

I was impressed by (defendants) their vast knowledge of what is taking place in the world today and the courageous manner in which they made their presentation before the members of the Jury. They stood in the Judge (Riten) Harris' court and to the members of the newly chosen Jury, that their acts weren't committed as crimes, but to prevent crimes.

The charges are six in a single indictment with unlawfully managing files in the offices of the Draft Board, FBI and U.S. Attorney, and with unlawfully entering the Federal Building on Sept. 6 with the intent to commit a crime.

I only wish it were possible for every fair-minded person or citizen to attend the various trial sessions, to hear and see those young middle-class Americans, tell their story and present their principles and beliefs in open court. I'm not trying to make heroes of these young people, but I am saying America must look to her REPUTATION here at home and abroad and do something about the injustice in the world and assure all bring peace to the peoples of the world today.

I hope that these young persons who bring the people of this community closer to GOD AND THE PRINCIPLES for which he gave his life. There have been scores of people who have followed in his footsteps and played a similar role in this life. Yes, I SHALL REMEMBER THEM — AS THEY STOOD BEFORE THE BAR OF JUSTICE-SOLITARY MOUNTAIN FORMS ON SOME HARD, PERFECTLY TRANSPARENT DAY.

MOUNTAIN FORMS ON SOME HARD,
YMCA Operation Outreach

BY ROY MARX, JR.,
Director of Public Relations

James Smith, left, dedicated worker on the staff of YMCA Operation Outreach, gets along with Leslie Barkley, a volunteer, as they work out a coaching session for one of the younger groups.

The above picture, in color, is being used throughout Monroe County as part of a YMCA slide presentation. The slide show is being used to tell 1400 volunteer workers and many more prospective givers why the Y is raising $7.5 million and how the money will be spent. The campaign stages are "More Boys Still Need a Greater Tomorrow." Operation Outreach is now 10 years old. The organization has recently moved into new headquarters at 54 Hudson Avenue. The building was a gift to the YMCA from Mr. and Mrs. William Smith, who had learned that Operation Outreach needed a new office space.

Kodak Plan Trains Students Thru City Home Rebuilding

Facts About Youth Employment

At this time of year many students look for part-time work after school hours in order to earn extra money or to make needed contributions to the family budget. Many find jobs on their own or are influenced by their parents.

COMMUNITY SCHOOL COUNCIL
A Long Struggle For Educational Improvement

By Edita Thomas

The development of community school councils in the inner city school districts has been slow. As early as 1967, Bernard Gifford, Superintendent of Rochester Schools, suggested that the education of students in the city could be improved by having each child assigned to a local public school district or to a neighborhood school of his or her choice. However, it was not until 1969 that plans were made for the establishment of local public school districts within the city.

The problem faced by the Rochester school system was to create a system that would accommodate the needs of all students. In 1968, the Rochester school board established a joint committee to study the possibility of forming local public school districts. The committee was composed of representatives from various community groups, including parents, teachers, and students.

In 1970, the Rochester school board presented a resolution to the City Council, requesting that they support the formation of local public school districts. The resolution was passed unanimously, and the City Council voted to establish the local public school districts.

The establishment of local public school districts was a significant step towards improving the education of students in Rochester. It allowed parents to have a say in the education of their children, and it gave students the opportunity to attend schools that best suited their needs. The local public school districts have continued to operate to this day, and they have had a positive impact on the education of students in Rochester.
