--	--

The RMSC’s Inventor Center encourages participants to explore the thrilling process of invention. As the first phase of a developing exhibition focused on innovation, the Inventor Center includes a series of participatory stations: learn, build, test, and share. Learn about a problem, explore the available materials, build a prototype, test your results, and share your ideas or inventions with others (not necessarily in that order). Hop into the process at any point and see what you can do! A new main challenge will be presented in the Inventor Center every four to five months, and it’s up to you to solve it.

As the Inventor Center Program Educator, you will be responsible for the set-up of Inventor Center during the week. Each day, you will ensure that all of the supplies are fully stocked, and you will keep an inventory log of backup supplies to ensure we have enough. When running low, you will submit requests for purchases of replacement or new supplies. Lastly, you will monitor how successfully different supplies are used and provide feedback to supervisors along with suggestions for improvements.

Additional responsibilities may be added as the position progresses. Opportunities for additional hours may arise as needed with other programs in the Education Department (e.g. Public Programs, Adult Programs).

**Responsibilities:**

- Ensure Inventor Center opens on time each shift.
- While staffing the Inventor Center, present the challenge to each new visitor who enters the area. Assist visitors with completing the challenge, and offer encouragement along the way as they work through the invention process.
- Make sure Inventor Center “junk pile” supplies remain fully stocked, neat, and tidy during open hours.

- Maintain up-to-date inventory of supplies for each challenge, and submit order requests to supervisors for more supplies as needed.
- Work with Discovery Guides to keep the Inventor Center clean and tidy; this includes sweeping the floor, wiping down tables and chairs after each use, and keeping reusable items sanitized.
- Provide feedback to supervisors, both from staff and visitors, on how challenges can be improved and different types of supplies that can be used.
- Assist members of the Education Department and Exhibits team with changing over to new challenges on a quarterly basis (approximately).

**Bonus Qualifications:**

- Experience working with children and families
- Excellent organizational skills
- Ability to work as a member of a team
- Ability to be a self-starter and identify/address areas of need without explicit instruction

**Work Conditions:**

- Programs take place in-person at the RMSC Museum & Science Center (657 East Avenue, Rochester, NY 14607).
- While performing the duties of this job, the employee is regularly required to walk and stand for up to 3 hours at a time; use hands to manipulate or feel objects, tools, or controls; reach with hands and arms; lower oneself to lift objects from the floor and meet young children at eye-level; stoop, kneel, and crouch. The employee must occasionally lift and/or move up to 50 pounds. Specific vision abilities required include close vision, depth perception, and ability to adjust focus.
- While performing the duties of this job, the noise level in the work environment is highly variable.
- While performing the duties of this job, the employee regularly works in close quarters with staff/volunteers, program participants and their caregivers/families, and/or all general public/RMSC visitors.

**Please submit your resume & cover letter to: Travis Hughes, Manager of Floor Experiences & Volunteers:  
thughes@rmsc.org**

**Deadline to apply: 01/31/2023**
